Software Engineer

A results-driven Full Stack Developer specializing in front-end and back-end development, API integrations, and cloud deployment. Proficient in JavaScript, React, Node.js, and MongoDB, with experience in building scalable, high-performance applications. Passionate about developing efficient, maintainable solutions that enhance user experiences. My problem-solving mindset and leadership experience enable me to optimize workflows, improve application performance, and drive innovation through collaboration.

Technical Skills

HTML | CSS | JavaScript | React | NodeJS | ExpressJS | Webpack | Git | Github | MongoDB | Figma | Responsive Design | RESTful APIs | Authentication & Authorization | State Management | VSCode |

Technical Projects

What to Wear - Weather App (FrontEnd) | https://github.com/ElijahSWilliams/se_project_react |

This app allows users to check the weather based on their location and provides clothing suggestions in an effort to help them plan their day better.

- **Developed** a responsive front-end using React to create an interactive user interface, ensuring a seamless experience on both desktop and mobile devices.
- **Integrated** a weather API to fetch real-time weather data, allowing users to receive up-to-date forecasts based on their location.
- **Implemented** dynamic clothing suggestions based on weather conditions, enhancing the user experience by offering personalized outfit recommendations
- **Optimized** app performance by reducing API response time and implementing lazy loading techniques, improving load times and user engagement.

What to Wear - Weather App (BackEnd) | https://github.com/ElijahSWilliams/se_project_express |

Built the backend API to handle user authentication, image uploads, and CRUD operations for user-generated content.

Developed with **Node.js** and **Express**

- Developed and deployed an **Express.js** server for handling user requests, including authentication, image upload, and CRUD operations.
- **Implemented CRUD functionality** for managing user data (like storing preferences or saved locations), allowing users to create, read, update, and delete their information.
- Integrated a **MongoDB** database to store user data, images, and interactions.
- Implemented **JWT authentication** for secure user login and session management.

Around the U.S- Social Media Web App | https://github.com/ElijahSWilliams/se_project_aroundtheus |

A Social Media Web App that connects users by allowing them to upload and remove pictures of places they've visited, while also allowing them to interact through likes.

- **Enabled users to upload and delete photos**, creating a dynamic platform where they can share their travel experiences with others, fostering a sense of community and exploration.
- **Implemented a like system**, allowing users to engage with each other's posts, encouraging interaction and building connections based on shared interests.
- **Designed a user-friendly interface**, making it easy for users to browse and interact with photos, enhancing the overall user experience and accessibility.
- **Integrated** user authentication, ensuring secure login and account management for a personalized experience.

Professional Experience

Teachers Aid, Childcare Careers, Philadelphia PA

4/2025 - Present

- Support individual children with diverse developmental and behavioral needs, fostering positive learning and emotional outcomes.
- Assist lead teachers with classroom setup, activity planning, and daily operations to maintain an organized, child-focused environment.
- Promotes a safe and inclusive atmosphere by actively engaging in play, conflict resolution, and social-emotional support.

Delivery Associate, STA Delivery LLC, Philadelphia PA - Ensured timely and accurate deliveries while optimizing routes for efficiency. - Developed time-management, problem solving, and customer service skills. - Performed daily vehicle inspections to ensure the safety of the driver, packages, and others.	11/2023 - 4/2025
Student Teacher, Beyond The Bars, Philadelphia, PA - Provided one-on-one and small group piano instruction, tailoring lessons to student needs. - Developed patience, communication, and instructional skills. - Designed lesson plans that accommodate different skill levels and learning styles.	1/2020 - Present
Backroom Processing Associate, HomeSense, Philadelphia, PA - Assembled furniture, ensuring high quality craftsmanship. - Developed attention to detail, problem solving, and hands-on technical skills. - Assisted in inventory management and maintained a safe, organized workspace.	12/2022 - 11/2023

Education

Software Engineering Certificate, TripleTen	12/2023-06/2025
JavaScript Certification, Community College of Philadelphia, 1700 Spring Garden Street, Philadelphia PA	09/2020 - 06/2022
